Town: Fidenza, Italia  
Client: Strabag S.r.l.  
Investor: ALDI Süd

Type of works performed by Alu alprem:  
Semi-structural facade  
Windows and doors  
Interior elements  
Alucobond cladding

Materials:  
Metra SKYP-P50  
Metra NC75  
Alucobond

Key words:  
Aldi adapted to Italian market  
Windows with electric motor  
Low-E glass

ALDI, the largest discount store in Germany, is present in as many as 20 countries in the world. In 2018, numerous new stores will be opened; currently there are more than 10.000. Aldi stores in Italy belong to the most technically and aesthetically refined stores – Italians have a special relationship to food and Aldi has adapted its offer to the market's requirements.

The first Aldi in Italy is located in Fidenza where Alu alprem produced all outside and inside glazed elements. We also made the jutting roof with Alucobond cladding. The facade combines a classic design with low-e glass and structural tilt windows. The inner vestibule is completely made of glass.
