Year of implementation
2014

Building
Primary School Renče

Town
Renče, Slovenia

Investor
Renče-Vogrsko Municipality

Architecture
Stolp, d.o.o.

Type of works performed by Alu alprem
Alu windows
Vestibules
Fire-resistant doors

Materials
Schüco AWS/ADS 65
Schüco ADS 80 FR 30

Key words
Fire-resistant doors
Anti-panic doors
Round windows
Fire-resistant and evacuation doors are equipped with fittings based on the intended use and requirements of evacuation routes.

Doors are fully or partially glazed or fully panelled.

Round windows are tailor made and have a crossbar.

External windows are triple glazed and have $U_w = 1.2 \text{ W/m2K}$.

Alu alprem, d.o.o., performed the entire glazing procedure, from the detailed design and coordination to the final implementation.
